The UNM Maintenance of Certification in Anesthesiology Simulation Program for ABA Part IV

February 28, 2016

April 2, 2016

June 4, 2016

August 13, 2016

October 15, 2016

November 19, 2016

Presented by:

Department of Anesthesiology and Critical Care Medicine and the Office of Continuing Medical Education

University of New Mexico

Maintenance of Certification in Anesthesiology (MOCA[®]) Simulation Program

The goal of the ABA-required simulation activity is to enhance and document participation in Practice Performance and Improvement (PPAI) activities. Our MOCA simulation

programs focus on presenting scenarios designed to help the participant identify areas and projects for their PPAI programs. A major portion of the simulation process is dedicated to a detailed debriefing regarding the action, decisions, and processes arising in each scenario. Peer to peer, guided debriefing will occupy at least 30% of the educational process. Debriefings may also include handouts and/or brief presentations on key clinical issues.

“This simulation course fulfills one requirement of the American Board of Anesthesiology’s (ABA) Maintenance of Certification in Anesthesiology Program (MOCA[®]) Part IV. Please consult the ABA website, www.theABA.org, for a list of all MOCA[®] requirements.”

Participant Prerequisite:

ABA diplomate seeking MOCA[®] recertification.

Cost: \$1,500.00

Duration: 8 hours (0730-1530)

A box lunch is provided.

Refund Policy: Refunds for cancellation will only be available if notice is provided in writing two weeks prior to the scheduled date of course. There is a \$40.00 cancellation fee.

Cancellation Policy: The UNM Anesthesiology Simulation Program reserves the right to cancel a session at any time if a minimum number of registrants is not met (refunds or re-registration will be offered). If necessary, the decision to cancel will be made at least 30 days in advance. In the event this conference is cancelled, UNM CME is not responsible for any airfare, hotel or other costs incurred by participants.

Program:

The Simulation Education Program of the Department of Anesthesiology and Critical Care Medicine at the University of New Mexico (UNM) School of Medicine is an American Society of Anesthesiologists (ASA) endorsed simulation center. We will be presenting advanced clinical scenarios for small (3-6) groups of practitioners with the goal of fulfilling the ABA Simulation Requirement under the Maintenance of Certification Program in Anesthesiology (MOCA[®]).

All simulation programs will take place at the UNM Basic Advanced Trauma Computer-Assisted Virtual Experience (BATCAVE) facility in the basement of the Clinical and Translational Sciences Center (just north of the UNM Hospital). (<http://som.unm.edu/batcave/>)

Critical Care or Pain Management Simulations:

If you are interested in critical care or pain management simulations, contact [Kathy Breckenridge](mailto:kbreckenridge@salud.unm.edu) at 505-272-3942 or by email at: kbreckenridge@salud.unm.edu.

Maximum Student-Instructor ratio = 5:1, Usually 2:1 or 3:1

- Four or more scenarios will be presented for each session.
- Each participant will be the primary manager in at least one of the scenarios.
- Post-scenario debriefings will include input from peers and instructors.

Core topics recommended by the ABA are:

- Management of significant hemodynamic instability.
- Management of significant hypoxemia from any cause, including difficult airway.
- Principles and practice of teamwork and communication.

Accreditation:

The University of New Mexico School of Medicine, Office of Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
