Conference Objectives:
At the conclusion of this conference, the participant should be able to:

- Discuss the benefit of systematically connecting rural hospitals to a regional tertiary care center and the risks of interhospital transfer for rural patients.
- Discuss the properties, efficacy and toxicity of buprenorphine and the utility and effective dosing for treatment of pain in the ED.
- Describe Extracorporeal Life Support in the cardiac arrest patient and discuss the system components of optimizing CPR to maximize Cerebral Blood Flow.
- Discuss the factors influencing the changes to national healthcare legislation and describe the ways ACEP’s advocacy works to improve the everyday practice of emergency physicians.
- Discuss the function of the UNM EMS Consortium and the creative and unique EMS agency models.
- Discuss advanced airway techniques and devices.
